

HEROES WEAR HAIX®

HAIX®-Climate-System

HAIX®-MSL-System

Upper Material: Waterproof leather, hydrophobic, breathable, 2.5 – 2.7 mm thick

Inner Lining: GORE-TEX® Laminat Technology; 4-layer GORE-TEX® laminate, waterproof and breathable. Highly abrasion-resistant lining with fleece midlayer. Optimized- climate comfort for all year seasons and excessive use. Increased chemical protection.

Plastic Insole: dimensionally stable, torsion-proof, avoids punctual pressure (e.g. of stones)

Food bed: Anatomically formed, exchangeable, washable, very good moisture absorption, dries quickly

Sohle: Rubber/PU sole with a street/terrain tread, wear resistant and non-slip traction. Optimal step and bend behaviour due to sporty toe and heel rounding. This rubber shell sole features the MSL (micro-soft-light) system that is the result of an additional production process to achieve extremely low weight, excellent cold/heat insulation and non-marking characteristics. The manually-applied rubber sidewall gives this sole optimal side stability. Compliant with EN ISO 20347:2007

HAIX®-Climate-System: Climate System with Micro-Dry lining at top of leg

HAIX®-MSL-System: MicroSoftLight: Improved damping, extremely low weight due to the PU foam across the entire sole area, good cold/heat insulation

Others: No side seams, lacing system with eyelets permitting smooth movement, clamps and hooks

Sun Reflect: Reduces the heating effect of the upper leather by direct sunlight. Sunlight is reflected by the leather, keeping the leather and the feet cooler.

KSK 3000

Art.-Nr. 214004

CE EN ISO 20347:2007 O2 HRO HI CI WR FO SRC

Leather thickness 2.5 – 2.7 mm, waterproof and breathable with GORE-TEX® Laminat Technology, HAIX®-Climate-System, HAIX®-MSL-System, Leg height 15,5 cm, antistatic
